

Cold As Hell

Marvelous 3

Oh, she took a light saber to my heart
And she picked my brain with a pocket knife
She said, "Say what's on your mind"
So I said, "I'm kind a hungry and you ain't my type"

She said, "I was cold as hell"
But hell's not cold I know, I know
'Cause I've been there for the last half hour or so
And the devil said it never snows

I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
Try on a few more faces for you

Oh, she took me out on a shopping binge
'Cause you said that I was hurting for some cooler clothes
She said, "Don't you wanna be all that
Like a Calvin Klein model in a video?"

She said, "I was cold as hell"
But hell's not cold I know, I know
'Cause I've been there for the last half hour or so
And the devil said it never snows

I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
Try on a few more faces for you

[Incomprehensible]

Oh, she said, "I was cold as hell"
But hell's not cold I know, I know
'Cause I've been there for the last half hour or so
And the devil said it never snows

Although I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
Try on a few more faces for you

And smile, that's right

I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
Try on a few more faces for you, for you

I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
Try on a few more faces for you

I guess I can wait awhile
See if the temperature changes
I guess I can wait awhile
