

# I Could Change

Marvelous 3

New Year's Day, lyin' next to my bed  
With a hand in my pants and a song in my head  
About being depressed 'til I figured out it ain't the 90's anymore

I looked through a Raygun and looked through a spin  
Then I ripped out the pages of clothes that were in  
Then threw my Pumas and tried to put it all behind me

And Mona Lisa smiled as I was walkin' out the door  
She said, "You know, you gotta keep it real, just like the year before"  
I second that emotion and 20, 000 more

'Cause I could change and you could change  
But everybody would stay the same  
I could change and you could change  
But everybody would stay the same, I know

Still on vacation with nothin' to do so  
I got in my car and I got a tattoo  
Just to cover up the one that I got of you when I was drinkin'

I really only now regret the things I haven't done  
And stayin' under covers in the dark it ain't no fun  
You know I'd rather take my glasses off and stare right at the sun

'Cause I could change and you could change  
But everybody would stay the same  
I could change and you could change  
But everybody would stay the same, I know, I know

I could change and you could change  
But everybody would stay the same  
I could change and you could change  
But everybody would stay the same, I know

Hey, hey, hey  
I know, I know, I know, I know
