

Pizza And Wine

Marvelous 3

Walk to the corner, just another funny feeling
Sure enough, you were standin' like a civil war statue
It's a steak through the heart, without a steak on my plate
Left just spinning round in circles, darling is there nothing left for me now

You're wasting your time
I'm nothing like you, you're nothing like me
Don't get me no wrong
Don't waste your time, I'm not your type

By next Sunday morning I was feeling just fine
Do you recall me asking if you wanted pizza and wine?
You said, eating's not my thing and the wine just makes me dizzy
I know there's other victims would you please just tell me who is he now

You're wasting your time
I'm nothing like you, you're nothing like me
Don't get me no wrong
Don't waste your time, I'm not your type

What part of all of this, don't you understand
If the devil believed in persistence, you'd be put up on the street
and
As Elvis is my witness
I'm the King of Never Knowing What I Want

You're wasting your time
I'm nothing like you, you're nothing like me
Don't get me no wrong
Don't waste your time, I'm not your type

No, no, oh, no, oh

You're wasting your time
I'm nothing like you, you're nothing like me
Don't get me no wrong
Don't waste your time, I'm not your type

Ooh, yeah, ooh
