

## All the Way Round

Marvin Gaye

Ohh, if you wanna do it, then let's it get it on  
But how you gonna act this time around?  
Before we take it off down to the skin  
Lets get an understanding  
Girl you didn't understand my philosophy  
You did not understand, you just ran away from me

Oh I miss you baby  
Ohh I miss you badly, I miss you  
You're the best I ever had  
You're so bad baby  
But I must like it like that  
Although you won't let me control this or that  
i still find you're where it's at

Ah now I see you're coming straight to the point  
You say the more you get, baby  
Ah the more you want me  
Yeah darling you're not wasting my time  
What I see baby is so hard to find

Although you've been all over town, baby  
Having your affairs, I still got to accept you back  
Angel, although you're promiscuous  
I don't mind a bit cause you're still the greatest lay in bed  
even when you're miles away

Girl if you run away again  
Surely my heart would never mend  
Don't tell me the love we made  
Was just for old times sake  
Staying up waiting for you to come home at night  
Was just so hard to take  
She said that pain might never mend  
So let's be sometime lovers  
Oh baby that's when my poor heart broke up

Well if you got a girl and you want her for your wife  
you got to treat her good and love her all your life
