

# Forever

Marvin Gaye

Darling, forever, forever  
You can break my heart  
Forever, if you want to  
I'll play the part of a fool  
Just to be with you forever

Forever, darling, forever  
You can taunt me  
Take my love for granted  
But I'll always be just a fool  
Just to be with you forever

I'll be your slave  
For the rest of my days  
Love you more in so many ways  
Just to be with you thrills me through and through

Forever, darling, forever  
You can taunt me  
Take my love for granted  
But I'll always be just a fool  
Just to be with you forever

Forever, forever, I'll love you so
