

# I'll Never Stop Loving You Baby

Marvin Gaye

There's a spark inside my heart  
That sets my soul on fire & keeps the flame inside me  
I love it, Marvin  
Baby, just like the glow from out the night  
When you're near, I feel all right  
Something inside me keeps me yearning, oo baby

I'll never stop loving you baby, no no no no  
I'll never stop loving you, Marvin, no no no no

Near to you, I'm sure I'll rhyme  
Every dream that's passed through my mind  
Simply because your love makes me believe  
Near to you, I feel so strong  
And I know I can right any wrong  
Loving you gives me the power that I always need

I'll never stop loving you baby, no no no no  
I'll never stop loving you, Marvin, no no no no

Baby, tell me baby  
Oh baby, right from the start, you showed you cared  
Every moment that we ever shared  
Has brought me one step closer, oh to you  
That one day, honey, since we met  
Have you surely one reason to regret?  
Giving my love to you, dear

I'll never stop loving you baby, no no no no  
I'll never stop loving you, Marvin, no no no no
