

I Want You 'Round

Marvin Gaye

Every day that passes by
I think about the new love you found
And my eyes cloud up and cry

Because I want you around
I want you around

I spend my saddest moments
After the sun goes down
That's when my heart starts aching

Because I want you around
I want you around

No matter where I travel
In the country or a town
My lips call out your name

Because I want you around
I want you around

Because I want you around
I want you around

Because I want you around
I want you around
