

# If I Should Die Tonight

Marvin Gaye

Oh, If I should die tonight, oh, baby  
Though it be far before my time  
I won't die blue, sugar, yeah  
'Cause I've known you

Ooh, oh, how many eyes  
Have seen their dream?  
Oh, how many arms  
Have felt their dream?  
How many hearts, baby  
Have felt their world stand still?  
Ooh

Millions never  
They never, never  
And millions never will, baby  
They never will

Who, If I should die tonight, love  
Darlin', far before my, whoa, my time  
I won't die blue  
'Cause I've known you  
Ooh

I'm so grateful, baby, grateful that you're lovin' me  
My desire  
Is to love you till  
I'm no longer here and never tired  
Love has been so good to me, me  
I'm so thankful

Ooh-ooh, how many eyes  
Have seen their dream?  
How many arms  
Have felt their dream?  
How many hearts, oh, darlin'  
Have felt their world stand still?  
Oh, Lord

Oh, millions never  
No, never, never  
And millions never will, sugar  
They never will

If I should die tonight, ah, baby  
I just want you to keep this one thought in mind  
That I will never die blue  
'Cause I've known you  
Ooh
