

# Lonely Lover

Marvin Gaye

Lonely lover cryin' through the night  
'Cause the one you love has left you  
Lonely lover cryin' alone in the dark  
Your sighing just breaks my heart

I hear you cryin' from across the street  
It keeps me awake, unable to sleep  
I close my window, not wanting to hear  
Still your cries echoes in my ears, hey, hey

Lonely lover cry your little heart out  
Tryin' to wash away your hurt, yeah  
Lonely lover, how I long to comfort you  
'Cause when you're hurting, I'm hurt too

From my window across the street  
I watched you kiss him tenderly  
Kissing you like I never could  
To you I'm just another guy in the neighborhood, hey, hey

I've heard neighbors sayin' that he's gonna put you down  
For another girl, across town  
Lonely lover sobbing through the night  
How I long to hold you tight

Many nights I've wakened from my sleep  
Hearin' you cryin' from across the street  
Your neighborhood friend is all I'll be  
But I still love you so tenderly, hey, hey

Lonely lover cryin' through the night  
Lonely lover cryin' through the night  
Ooh, lonely lover cryin' through the night  
Ohh, lonely lover sobbin' and weepin', baby
