

# One Of These Days

Marvin Gaye

I don't know why we do the things we do  
Or say the things we say  
There is no music in my soul  
Since you went away  
Since you've been gone  
My heart beats in darkness  
I've been hurting for you

One of these days  
I'm gonna walk in the sun  
When the chill is over  
And the battle is won  
Ready to stand up and fight  
But oh how I miss you tonight  
I hear a whisper in the winter wind  
And I turn around

It'll just be the crying of the falling leaves  
On the dirty ground  
Every night I walk through the shadows  
Kicking up old memories  
One of these days  
I'm gonna walk in the sun  
When the chill is over  
And the battle is won  
Ready to stand up and fight  
But lord how I miss you tonight

When it's over  
One of these days  
I'm gonna walk in the sun  
When the chill is over  
And the battle is won  
Ready to stand up and fight  
But oh how  
I miss you tonight

One of these days  
I gonna walk in the sun  
Wake up one morning  
And the hurting is gone  
Ready to stand up and fight  
Give me the feeling I can do something right  
One of these days  
One of these days  
When it's over  
When it's over
