

# Together

Marvin Gaye

We'd stroll the lane together  
Laugh at the rain, oh you know, together  
Sang love's refrain together  
& we'd both pretend it would never end

When we cried, you know we cried together  
Cast love aside together  
You're gone from me  
But in my memory  
We'll always be together

(Together, together)  
& we'd both pretend it would never end

You stole the sunshine, oh you know  
We're gonna be together  
& our hearts, our hearts that won together  
Oh you've gone from me  
But in my memory  
We'll always (always be)  
We'll always (always be)  
We'll always be (always be) together

We're gonna be together  
Oh you know we, we just gotta be together
