

## Don't Say Okay

Mary Black

I'm giving up on TV it's not making sense  
Gotta trust ourselves it's the last line of defence  
Spinning into space running out of time  
Gathering together all the useful things we find

So don't say okay and be half-hearted  
I'm afraid that this feeling goes on

Sacrifice the world face a killing sun  
You gotta get it all together it'll bring us all undone  
We're running up hills that we already climbed  
Over the top and falling down the other side

So don't say okay and be half-hearted  
I'm afraid that this feeling goes on

The ghosts are at the window they're again tonight  
Looking in on us so we have got to get it right  
We've walking on their bones everywhere we go  
Spirits in the wind and the memories in the stones

So don't say okay and be half-hearted  
I'm afraid that this feeling goes on

How we gonna get the healing done?
