Flesh & Blood

Mary Black

If we leave here today We could be a thousand miles away Take to that road see how far it goes And on that great ocean road Oh the country's in our bones All the trouble that you know Empties out as you go

Oh come on walk with me, talk with me, Tell me your stories I'll do my best to understand you You're flesh and blood, flesh and blood Don't refuse me your love More than words can express More than wealth or success Oh there's a thousand things to do So let's start here with me and you All the pain that you feel All the hurt that seems so real

Oh come on walk with me, talk with me, Tell me your stories I'll do my very best to understand you You're flesh and blood You can't go on holding back The flooding river Keeping all that fear inside I understand how trouble haunts you Yes and I do know how you feel

There's a thousand things to do So let's start here with me and you Gonna take a little time Let's see what we can find Oh come on walk with me.....
