

Lighthouse Light

Mary Black

Lighthouse light keep on shining
Keep those ships from your shore
Lighthouse light keep on shining
Shine on to the one that I adore

There's a ferry boat a coming
Across the cold grey sea
There's a ferry boat a coming
Bringing my love home to me

Lighthouse light keep on shining
Keep those ships from your shore
Lighthouse light keep on shining
Shine on to the one that I adore

There is lightning in the distance
Coming in from the west
There is lightning in the distance
Thinking on the one that I love best

Lighthouse light keep on shining
Keep those ships from your shore
Lighthouse light keep on shining
Shine on to the one that I adore

Lighthouse light keep on shining
Shine on to the one that I adore
Lighthouse light keep on shining
Keep those ships from your shore
Lighthouse light keep on shining...
