

## Past The Point Of Rescue

Mary Black

Last night I dreamed you were back again  
Larger than life again, holding me tight again  
Placing those same kisses on my brow  
Sweeter than ever now, Lord I remember how

Couldn't get enough of kissing, do you know how much I'm missing  
No you don't, but I do

### CHORUS

But I do, and I wonder if I'm past the point of rescue  
Is no word from you at all the best that you can do  
I never meant to push or shove you  
Do you know how much I love you  
No you don't but I do

Days like a slow train trickle by  
Even the words that I write refuse to fly  
All that I can hear is your song haunting me  
Can't get the memory out of my head, you see  
Distractions I've been using

Do you know how much you're losing  
No you don't, but I do
