

The Night Is On Our Side

Mary Black

You might find another lover
You might find another friend
Don't confuse one with the other
You've got someone
Who will love you till the end
Don't be afraid to break your own heart
Don't be afraid to watch it bleed
Sometimes fear is braver in dark
Don't save yourself from dangers you can't see

Oh oh oh
The night is on our side
Oh oh oh
To wipe the tears from both our eyes
Oh oh oh
Though your mind is so unsure
You'll know when you see her
When you see her you'll know

You're much too young to understand youth
You're much too young to fight this war
What if youth is not the issue
And the struggle is the thing worth fighting for?
Oh oh oh
The night is on our side
Oh oh oh

To wipe the tears from both our eyes
Oh oh oh
Though your mind is so unsure
You'll know when you see her
When you see her you'll know

You'll know
You'll know
Just believe it
You'll know

Oh oh oh
The night is on our side
Oh oh oh
To wipe the tears from both our eyes
Oh oh oh
Though your mind is so unsure
You'll know when you see her
When you see her you'll know
