## **Come On Home**

## Mary Chapin Carpenter

Slowly as you look at me In your eyes I can't believe All the things I'm seeing now Plain as day to me somehow

Oh love, come on home

Promises a heart can keep Happiness is you and me Never was a dream so right Love has finally come in sight

Oh love, come on home

You fit into my life and You seem so right, like someone planned it You give yourself to me and You give so easily Seems like you always understand

Everything says you're the one Time is shining like the sun Telling my heart what to say Growing old with you someday

Oh love, come on home

You give yourself to me and You give so easily Seems like you always understand

Everything says you're the one Time is shining like the sun Telling my heart what to say Growing old with you someday

Oh love, come on home Oh love, come on home Oh love, come on home Oh love, come on home
