

# I Put My Ring Back On

Mary Chapin Carpenter

Who knows where faith comes from  
But last night I put my ring back on  
'Cause here with you is where I belong  
Last night I put my ring back on

No life's without uncertainty  
We both know how hard this love can be  
It's just this hurting inside of me that threw it down,  
Down down down

Who knows where hope comes from  
But last night I put my ring back on  
'Cause here with you is where I belong  
Last night I put my ring back on

We can't speak like lovers we used to be  
We can't change ancient history  
And love wounds with such simplicity  
And I threw it down, down down down, down

Your heart is all I want to see  
Your hand reaching out to me  
And your kiss remembers the mystery

Time was, I'd be as good as gone  
But last night I didn't want to run  
'Cause here with you is where I belong  
Last night I put my ring back on  
Last night I put my ring back on  
Last night I put my ring back on
