Quittin' Time

Mary Chapin Carpenter

Hey baby tell me what we're gonna do It's getting crazy and I need some help from you We were so connected that you were a part of me Now I feel an emptiness right to the heart of me

But you pretend and I pretend That everything is fine And though we should be at an end It's so hard admittin' When it's quittin' time

Hey baby I'm running out of things to say Please don't hate me this feeling just won't go away Now we're spending all our time caught in a fantasy Just trying to keep in mind the way it used to be

But you pretend and I pretend That everything is fine And though we should be at an end It's so hard admittin' When it's quittin' time

But you pretend and I pretend That everything is fine And though we should be at an end It's so hard admittin' When it's quittin' time
