

What Was It Like

Mary Chapin Carpenter

What was it like
How did it feel
It's so hard to tell if it was real
I know I was there but with every day
It slips away
And I feel like a passing glance that you never gave a chance
Baby that's not right
What was it like

What did you say
What did I hear
When did it start to disappear
I know you were there
You know that too
What did we do
'Cause I feel like a big mistake that you managed to not quite
make
And just walk away
What did you say

Guess I've waited long enough hoping it might be something
Other than what it was

You took something that felt so good
And crushed it because you could
One summer night
What was it like
What was it like
What was it like
