

# Blood Is Blood

Mary Gauthier

Clouds are spreading like bruises on the evening sky  
I walk the streets alone again tonight  
It starts to rain still I search each passing face  
Blood is blood and blood don't wash away  
Blood is blood and blood don't wash away

When I was a child  
They told me, she loved you too much  
She didn't keep me 'cause my mother  
Loved me too much  
She left without a trail  
She didn't leave a trace  
Blood is blood and blood don't wash away  
Blood is blood and blood don't wash away

I got a heart that ripped  
I got a sound that's torn  
I got a hole in me like I was never born

Blood is thicker than water blood is bound by God  
I don't know who I am I don't know who I'm not  
I don't know my name I can't find my place  
Blood is blood and blood don't wash away  
Blood is blood and blood don't wash away
