

Just Say She's A Rhymer

Mary Gauthier

When they ask about us, as friends always do
Remember the good times, honey, we had a few
I'll never condemn you, I'll take all the blame
You got a good answer when they speak my name

Just say she's a rhymer and rhymers get restless
Just say that she's out there in search of a song
I know I hurt you but I never meant to
Just say she's a rhymer, just say she's gone

You know that I loved you, you know that I tried
You know that it hurt me each time that you cried
When your crying is over and your new life begins
I won't be around much, so when you see our friends

Just say she's a rhymer and rhymers get restless
Just say that she's out there in search of a song
I know I hurt you but I sure never meant to
Just say she's a rhymer, just say she's gone
Just say she's a rhymer, just say she's gone
