I Don't Want to Do Anything

If loving you is all that I have to do I don't want to do anything else If loving you is all that I have to do I don't want to do anything else

Listen baby

Every night and day I dream of another way To tell you something good I don't think that I'm understood You walk away and I frown With my head hung far down You tell me what is wrong You just wanna be loved all night long baby

If loving you is all that I have to do I don't want to do anything else If loving you is all that I have to do I don't want to do anything else

You told me a thousand times That you would be mine, all mine I do everything for you But in your smile, I still can't find And now you tell me this This is something that I can miss And all you wanna do is to love me for me And I'll love you for you

If loving you is all that I have to do I don't want to do anything else If loving you is all that I have to do I don't want to do anything else

Now that I know I'm gonna make love to you So lady open up your heart And let me in where I belong

If loving you is all that I have to do Then it won't be wrong baby Cause we belong together baby

Together we will be as one Just me and you, you you you

Will you love me I will love you Will you please me I will please you Girl, don't leave me I won't leave you Let's make it easy I'll make it easy

Will you love me I will love you Mary J. Blige

Will you please me I will please you, you, you Girl, don't leave me I won't leave you Let's make it easy

They can take my possessions No, no, no, no, They can never take your love away from me

Oh, see now listen, with every breath I breath And every beat in my heart I know that no one, I know that no one Can tear us apart (Oh no) Cause I love you baby K I love you too And I need you baby K I need you to baby

Stay with me more than just a day And you know, you know, you know

I love you Oh yes Oh you make me feel so good baby
