

# Kiss and Make Up

Mary J. Blige

Truth is not a thing you recall  
Making truth is all I desire  
Seen enough to know I've seen too much

Words can't save us  
Sometimes you got to kiss and make up  
We argue  
But it won't break us  
Put some make-up, babies  
Just so you can kiss and make up  
It's safe for everybody  
It's safe for everybody, everybody  
I wanna kiss and make up  
Go on, kiss and make up

Put some make-up, babies  
Just so you can kiss and make up  
It's safe for everybody  
It's safe for everybody  
That's how you really know it's love

Loving you it ain't easy, you see  
Love is something you got to be  
Nobody else should come between us  
That's just between you and me

Words can't save us  
Sometimes you got to kiss and make up  
We argue  
But it won't break us  
Put some make-up, babies  
Just so you can kiss and make up  
It's safe for everybody  
It's safe for everybody, everybody  
I wanna kiss and make up  
Go on, kiss and make up

It's safe for everybody  
It's safe for everybody  
That's how you really know it's love

I've been waiting for a while  
And then you came into my life  
And gave me a new love, a new love  
A love that I need, a love that I need  
Even when things are not easy

It's not like we will separate  
Cause what we have is given by fate  
It's unbreakable, so unshakeable

And it can't be another way  
It's safe for everybody  
It's safe for everybody, everybody  
Go on, kiss and make up  
You know you just can't fake love  
Come on, kiss and make up

And it can't be another way  
It's safe for everybody  
It's safe for everybody, everybody  
That's how you know it's really love
