

Kitchen

Mary J. Blige

Yeah! (8x)

Oooh... Let the Piano Man Play (2x)

I'm callin you in the middle of the night
Before we have a little problem
You You You, Me & You, You You
And it ain't gon be no foolin around
Between him & you
you you you you you you you
Him and You girl

I know lotta girls who don't need a man
But I need this one (I need this one)
And I know you might need you a man
But you ain't gettin' this one (ain't gettin' this one, no no no)

See I can have anybody baby I ain't stressin'
But what I done for him I consider him an investment
Tryna take my man is like Tryna take my money
And Tryna take my money well
Just ain't haven't it

I don't know it all, but I tell ya what I know
Never let a girl cook in your kitchen
All up in your fridge, and next will be the stove
Never let a girl cook in your kitchen
When it all gets hot... everything drops
Eyes on your man, hands on your pot
If she runs in to help, tell her stay right in her spot
Never let girl cook in your kitchen

See I'm Sorry but i'm have to shut them burners
Down down down so we can keep it cool
Cool (8x) yeah
See I don't need no extra ingredients
Theres not enough cabinent space for
Two (8x) yeah

Now I can have anybody baby I ain't stressin'
But what I done for him I consider him an investment
Tryna take my man is like Tryna take my money
And Tryna take my money well
Just ain't haven't it

I don't know it all, but I tell ya what I know
Never let a girl cook in your kitchen
All up in your fridge, and next will be the stove
Never let a girl cook in your kitchen
When it all gets hot... everything drops
Eyes on your man, hands on your pot
If she runs in to help, tell her stay right in her spot
Never let girl cook in your kitchen

I know what you saying...

I seen it all before (seen it all before)

And I'd rather show you out (cuz I really dont want you around)
There's the door just let you walk up in this kitchen?
Girl you got me twisted

I don't know it all, but I tell ya what I know
Never let a girl cook in your kitchen
All up in your fridge, and next will be the stove
Never let a girl cook in your kitchen
When it all gets hot... everything drops
Eyes on your man, hands on your pot
If she runs in to help, tell her stay right in her spot
Never let girl cook in your kitchen

Yeah boy... I know what you saying...
