

## Propose

Mary J. Blige

Thinking the ways to say I love you  
Thinking the ways to say I love you  
No better way to say I'm love you  
Thinking the ways to say I love you  
There's no better way to say I love you  
There's no better way to say I love you

Baby I propose you  
If you needed me to  
Cause your wrong rings bound to serve For me  
And no ring compares to you  
Boy you're my wings  
And you're my sky  
And without you baby I just can't fly

It seems like it was just yesterday  
Waking up to your face  
I knew right then, and there baby  
Everything would be okay  
You looked into my eyes  
And all that I could see was me  
And everything that is is everything you said it would be  
And things go up, and things fall down  
I think they call that love  
And all the imperfections in this world Created a perfect us  
If you want I'll take a bending knew  
And look right in your eyes  
Just so you know where I stand  
You're always in my mind

Baby I propose you  
If you needed me to  
Cause your wrong rings bound to serve For me  
And no ring compares to you  
Boy you're my wings  
And you're my sky  
And without you baby I just can't fly

I bought right dear, eagerless  
Soaken in these memories of us  
Full of heights, we're standing low  
I wanna see this through til the end  
Until my eyes close  
And things go up, and things fall down  
I think they call that love  
And all the imperfections in this world Created a perfect us  
If you want I'll take a bending knew  
And look right in your eyes  
Just so you know where I stand  
You're always in my mind  
Baby I propose you  
If you needed me to  
Cause your wrong rings bound to serve For me  
And no ring compares to you  
Boy you're my wings  
And you're my sky  
And without you baby I just can't fly

I propose to you  
If you needed me to  
Cause your wrong rings bound to serve For me  
And no ring compares to you  
Boy you're my wings  
And you're my sky  
And without you baby I just can't fly

I can't fight without you baby  
To get down on my bended knee  
But I love you, I do so much  
And I love you, I love you

I can't do with you  
I just can't fly
