

# Heart On My Sleeve

Mary Lambert

Let me your porch light  
Your favorite star on the best night  
A good year, a good fight  
Let me be a night walk  
Lock eyes in the midday sun spark  
Good luck, your whole life  
Let me be, one hand, finding one hand  
Two hearts making omens  
With themselves and their end  
Cause I'm not sure who I was before  
But the day I saw you, I sure adore you  
Open up the things I shut, the things I shut

Fast speed, got my heart on my sleeve  
You're the one, I gotta have  
Might be just what I need  
You're the one, I gotta have

Let me be your compass  
The light that you see at sunset  
Good luck, your whole life  
Let me be, one hand, finding one hand  
Two hearts making omens  
With themselves and their end  
Cause I'm not sure who I was before  
But the day I saw you, I sure adore you  
Open up the things I shut, the things I shut

Fast speed, got my heart on my sleeve  
You're the one, I gotta have  
Might be just what I need  
You're the one, I gotta have

I could be  
Let me be  
I could be your  
I could be your heart speed  
Running as fast as the beat would take us  
I could be  
Let me be  
I could be your  
I could be your heart speed  
Running as fast as the beat would take us

Yeah  
Fast speed, got my heart on my sleeve  
You're the one, I gotta have  
Might be just what I need  
You're the one, I gotta have

You're the one, I gotta have  
You're the one, I gotta have
