My moon

Mary Lambert

If I were the ocean,
I could pull back for you
And I could fill up for you;
Cause you are the moon

And I am but the sea,
The wide blue,
Staring up at you

You're my moon, my moon, my moon

They don't know why I love you like I do
And gravity don't have a thing to do with you or me

My moon, you're my moon, you're my moon

I made a tidal wave just to get close to you
I made a tidal wave just to get close to you
I made a tidal wave just to get close to you

My moon, you're my moon, my moon

If I were the ocean,
I could pull back for you
I could fill up for you,
Cause you are the moon
