

Are You Ready

Mary Mary

La, la, la, la, la, la, la, la, la, la, la, la, la, la
La, la, la, la, la, la, la, la, la, la, this is what she said

I'm leavin' the ghetto, been plannin' for a while
I'm packin' up my dreams right now
Good morning to the future, good night to the past
It's gonna be a good day

Looking for the good life
The big town and the green lights
On a wing and a prayer and a one way flight

Are you ready? Are you ready?
You talk about it everyday
And, yeah, you've got a lot to say but

Are you ready? Are you ready?
Gonna take a lot of preparation
To reach your destination so

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

No, you can take a flight to Egypt, to Paris or Dubai
Then on to the next place in your mind
But why you wanna go so far
When it won't change who your are?
On [Incomprehensible] or the ghetto

Looking for the good life
The big town and green lights
On a wing and a prayer and a one way flight

Are you ready? Are you ready?
You talk about it everyday
And, yeah, you've got a lot to say but

Are you ready? Are you ready?
Gonna take a lot of preparation
To reach your destination so

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

Oh, doesn't really matter to ya
If you can get away
Don't you know that where your mind is
Is where your gonna stay

I suggest you make the best of your time
Just keep God on your mind
And I'm sure, in time you'll be ready

Are you ready?
You talk about it everyday
And yeah you've got a lot to say but

Are you ready? Are you ready?
It's gon' take a lot of preparation
To reach your destination

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

You gotta get it together, get it together
Everybody, everybody, come on now
Get your mind right, eh
