Are You Ready

Mary Mary

I'm leavin' the ghetto, been plannin' for a while I'm packin' up my dreams right now Good morning to the future, good night to the past It's gonna be a good day

Looking for the good life The big town and the green lights On a wing and a prayer and a one way flight

Are you ready? Are you ready? You talk about it everyday And, yeah, you've got a lot to say but

Are you ready? Are you ready? Gonna take a lot of preparation To reach your destination so

La, la, get your mind right La, la, la, la, get your mind right La, la, la, la, get your mind right La, la, la, la, get your mind right

No, you can take a flight to Egypt, to Paris or Dubai Then on to the next place in your mind But why you wanna go so far When it won't change who your are? On [Incomprehensible] or the ghetto

Looking for the good life The big town and green lights On a wing and a prayer and a one way flight

Are you ready? Are you ready? You talk about it everyday And, yeah, you've got a lot to say but

Are you ready? Are you ready? Gonna take a lot of preparation To reach your destination so

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

Oh, doesn't really matter to ya If you can get away Don't you know that where your mind is Is where your gonna stay

I suggest you make the best of your time Just keep God on your mind And I'm sure, in time you'll be ready Are you ready? You talk about it everyday And yeah you've got a lot to say but

Are you ready? Are you ready? It's gon' take a lot of preparation To reach your destination

La, la, get your mind right La, la, la, la, get your mind right La, la, la, la, get your mind right La, la, la, la, get your mind right

La, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right
La, la, la, la, get your mind right

You gotta get it together, get it together Everybody, everybody, come on now Get your mind right, eh
