

Closest Friend

Mary Mary

How long can I...
Before is too late
How many times can I make the same mistake
People when I am doing wrong
You answer my call
You never let me fall
And you never turn your back on me
You are crazy covers me
Don't know where I would be without your love
Cause you better hold on me
Took a while now I see
You watch over me over again

Now I changed
My life ain't the same
Since you came
All the pain you erase
I should have never let you
Know better
I will never leave you again
You are my closest friend

I was broken down
Till you came around
True love I found
I was on my way out
Cause you see the future
Can't make it without you
Cause you're blessing continue to fall
And you never turn your back on me
You are crazy covers me
Don't know where I would be without your love
Cause you better hold on me
Took a while now I see
You watch over me over again

You've been so good to me
How can I thank you
My everything
I just wanna praise you
So good to me
How can I thank you
You are my everything
Love you for the rest of my life

You are my closest friend
