

God Bless

Mary Mary

In the mall one day I saw you
Walking past
And then I looked again and
You were gone
Well anyway I thought about
When I last talked to you
And how I prayed for you
And how I told you things would be fine
In time you would be okay
If that was you then God bless

God bless
You been on my mind
Thought I'd call you up and tell you
God bless ya
And I'm glad you didn't break
Under the pressure
God Bless
I know it's been a while since
We spent time together
God Bless ya
And I'm glad to see you doing
So much better
I remember when you made
A big mistake
And had to go away
and when your time was spent
You did all you could to prove
You had changed
So many people didn't wanna give a
Second chance
But you didn't let that keep you from getting on your feet again

I really wanna let you know, I'm so
Happy for ya
Ya didn't let nothing hold you back,
You did just what you had to
To change your situation and get
Yourself together
Made it through whatever,
Wishing you the best
