I Try

Mary Mary

I try but sometimes I fail
Now I realize that I need your help
'Cause I can't make it all by myself
I need you, you, you , yeah!

I should know by now there's no way no
How I could live my life without you
Still I get caught up in myself
And talk to you less and less
And every time that I do
I come right back to you
Cause after all my mistakes
I know that I have to change
So I put my life in your hands

I wish I could undo some things that
I have done in my past
But I can't erase what's already
Taken place
So from now on I'll try to do my best
Cause after all my mistakes
I know that I have to change
So I put my life in your hands

Nobody wants to fall but we fall sometimes
Then you are there to catch us all
Every time you look beyond all my faults
'Cause you know I need another chance
To get it right you forgive me 'cause I try
