

Somebody

Mary Mary

Everybody has bad days
When they feel like no one cares
Call your friends in the middle of the night
And they just can't be there
I know someone who's available
And He'll answer every time you call
He won't ever leave you alone
That's just the kind of friend you should know

Anybody know somebody
Someone who will love anybody
Even if they're just a nobody
I know somebody, somebody

Let me offer you a suggestion
And I'll leave without no doubt
A love that reaches far and wide
That's where my faith lies
Let me tell you why
Cause every time I'm sad and lonely
He comes and puts His arms around me
Cause God's love is the first
And it is the last so if you ask

Oh I got a friend who loves me so
You ask how much I'll never know
And since I've found this love
I want to share it with everyone, oh

Oh do you know?
Oh do you know? Oh!
