

The Real Thing

Mary Mary

What is a gift
Is it something you give when no else is around
What is a gift
Is it something you take from someone you feel you found
I need a love
That goes beyond just the seasons
It's always there to share
I need a love
That sheds your light on the reason why in this time time we all
care
It's called the real thing
And you are that thing to me
It's more than a holiday
You are the real thing

What is a gift
Is it something you dream of when what you earn goes away.
What is a gift
Is it something you hope for when you couldn't possibly pay
Do you need a gift that gives right when you need it
Always there by your side
Do you need a gift that opens right when you ask it
If you seek it you will find
That he is the real thing

Joy to the world
Every boy and girl
Have a wonderful day
And when the day is done
And out goes all the fun
What can we do to make the love we feel stay.

What is a gift
Is it something you give to those who mean the more
And how can you give when all that you have has been taken by those
you given to before

You need the real thing
You need the real thing
Not just a holiday, not just a holiday
A gift that is always
Yes he is the real thing
He is the real thing, He is the real thing
He is the real, the real thing
