

# Me Without You

Mary Wells

Day without sun, stars without night  
Moon without glow, what a lonely sight

Never in my wildest dreams did I ever think I'd see  
Me without you (me without you)  
Or you without me (you without me), yeah

Birds without song, trees without ground  
Man without words, words without a sound

We vowed to always be as one till the end of time  
But now that you've left me, it doesn't seem real somehow

Summer without children running wild, winter without pain, yeah  
Summer without heat & a caribou without a game

You without me (me without you)  
Lonely lonely sight (you without me)  
Can't you see me cryin', baby? (Me without you)  
There's no one mind (you without me)  
I'm blue every night
