

# What Love Has Joined Together

Mary Wells

It would be easier to take the wet from water or the dry from sand  
Than for anyone to try to separate us or stop us from holding hands, 'cause

I love you, I love you from the bottom of my heart  
And what love has joined together, what love has joined together  
Can nobody take it apart

It would be easier to take the cold from the snow or the heat from fire  
Than for anyone to take my love from you 'cause you're my heart's desire, and

Even if they separate us a thousand miles apart  
We will still be together in each other's hearts

It would be easier to change all the seasons of the year  
Than for anyone to change the way I feel about you; I love you dear
