

Be Here Now

Mason Jennings

Be here now, no other place to be
Or just sit there dreaming of how life would be
If we were somewhere better
Somewhere far away from all all worries
Well, here we are

You are the love of my life

Be here now, no other place to be
All the doubts that linger, just set them free
And let good things happen
And let the future come into each moment
Like a rising sun

You are the love of my life
You are the love of my life
Yeah, you know you are

Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again

And it's all new today
All we have to say
Is be here now

Be here now, no other place to be
This whole world keeps changing, come change with me
Everything that's happened, all that's yet to come
Is here inside this moment, it's the only one

You are the love of my life
You are the love of my life
Yeah, you know you are

Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again
Sun comes up and we start again

It's all new today
All we have to say
Is be here now
