

Godless

Mason Jennings

This is not a conquering
I am not conquered
Even as the helicopters come for me
My wife sleeps in her clothes in the corner
I'm looking down at the police on the street
We all woke on this planet together
With the earth below and the sky above
Answer me this, would you do the same
If somebody raped the woman you love
K-k-killed a man, and now I'm on the run
Godless burning underneath the sun
K-k-killed a man, now I'm on the run
Godless burning underneath the sun
Don't sleep in the light (let 'em come, let 'em come)
