

# Godless

Mason Jennings

This is not a conquering  
I am not conquered  
Even as the helicopters come for me  
My wife sleeps in her clothes in the corner  
I'm looking down at the police on the street  
We all woke on this planet together  
With the earth below and the sky above  
Answer me this, would you do the same  
If somebody raped the woman you love  
K-k-killed a man, and now I'm on the run  
Godless burning underneath the sun  
K-k-killed a man, now I'm on the run  
Godless burning underneath the sun  
Don't sleep in the light (let 'em come, let 'em come)
