

# Lonely Road

Mason Jennings

Lonely road, we gotta walk it just a little bit farther  
Heavens knows it can't get any harder than it is today  
Lonely road, it's not ahead but is it getting harder  
Heaven knows it can't get any darker than it is today

Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
To who do you pray when you've lost your way  
And you've such a heavy load?  
Let me walk with you upon this lonely road

Lonely road, empty kitchen and a brand new feeling  
Nothing's moving but my heart is reeling since you went away  
Lonely road, gotta walk it till we start forgiving  
Find another way to go on living without you today

Who do you miss in times like this  
When your thoughts are filled with sadness and regrets?  
To who do you pray when you've lost your way  
And you've such a heavy load?  
Let me walk with you upon this lonely road
