Defying Man's Creation

Massacra

Metabolic degenerations The consequences of manipulation Monsters were created in the thousands Born dead creatures that live again In order to protect all species Guarded I labs for if and when Embryos / degeneration Signs of life / insemination Preserved in a sanctuary Sheltered in incubators Brandnew biotechnology This embryonic society Splitting and changing molecules When it's over who will be who Test tubes / D.N.A. Last survivors / will have to play Protected Geneotypes Biologic Memories The ecological degredations Are the cause of these genetic mutations Hybred and deformed species Are the results of this metamorphosis Keeping the pure foetuses alive Is the ultimate solution to survive Cryogenic Suspension Defying Man's creation
