

## Biohazard

## Massacre

Intoxicated polluted waste  
Rancid infectious decay  
Endanger earth's existence  
With germicidal disease

Absorbing through the skin  
Eating away internally  
Antagonizing burning pain  
Caustic chemical plague

Abysmal toxic warfare  
Twisted corrosive death  
Uncontrolled agony rises  
Festering in the flesh

Hundreds fall infected - only few shall die  
Those left among the living - will only pay for death!
