

# Inner Demon

## Massacre

I infest your mind  
You're not part of me  
I possess your soul  
Get the fuck out of me

Twisted voice from deep inside  
Twisting schemes in my mind  
No room for reason  
Screams my inner demon  
Inner demon

I enhance your hate  
You just bring me pain  
I distort your love  
It's already been slain

Broken feelings transform my thoughts  
Mistaken senses begin to rot  
No chance to reason  
With my inner demon

Omni-presence felt - everywhere it dwells  
Sanity departs - domination starts - ya  
Inner demon

I control your life  
You've already begun  
I command your being  
It's already been done

Grotesque visions become so real  
Distorted dreams now prevail  
I now have reason  
To unlock this demon

I have opened your mind  
I unite with you  
I now own your soul  
I give myself to you

Understand what it's all for  
Realise it's how I endure  
Done for this reason  
Release my inner demon  
Demon
