

Bad Girl

Massari

She wanna be a bad girl, She wanna be a bad girl
She running from her past life,
Looking for the spotlight
She wanna be a bad girl, She wanna be a bad girl
She's all up in the street light, looking for the spot light
(She wanna be)

I chase up she got me running every light
She see me coming got me swerving left and right
She in a tight spot checking all her blind spots
Cause I know you want me there when the lights out
She got the pedal to the floor in the rain
In and out of rain like its some kind of game
I'm thinking that I gotta speed up
Cause I know that she don't wanna slow down

She wanna be a bad girl, She wanna be a bad girl
She running from her past life,
Looking for the spotlight
She wanna be a bad girl, She wanna be a bad girl
She's all up in the street light, looking for the spot light

And she knows that she can drive them insane
Body like a super model rolling in a range
And I know that she wanna get down with a thug
Smack that give some love when she wanna
Wanna give anything to get on her
I lace her up in some Gucci and Prada
Take her to the crib it's on all night
Cause I'm a let her do what she wants

She wanna be a bad girl, She wanna be a bad girl
She running from her past life,
Looking for the spotlight
She wanna be a bad girl, She wanna be a bad girl
She's all up in the street light, looking for the spot light

Now she's all up in the streets and along
Shorty want it bad and she's out of control
Ain't nobody gonna get in her way
Cause she's out there doing her thing I know
She needs to be all that, type of girl that'll make you wait up to fo
r her to call back
But as long as she's bad with me, I'm a keep chasing her
Chorus

She wanna be a bad girl, She wanna be a bad girl
She running from her past life,
Looking for the spotlight
She wanna be a bad girl, She wanna be a bad girl
She's all up in the street light, looking for the spot light
