

## Bad Girl

Massari

She wanna be a bad girl, She wanna be a bad girl  
She running from her past life,  
Looking for the spotlight  
She wanna be a bad girl, She wanna be a bad girl  
She's all up in the street light, looking for the spot light  
(She wanna be)

I chase up she got me running every light  
She see me coming got me swerving left and right  
She in a tight spot checking all her blind spots  
Cause I know you want me there when the lights out  
She got the pedal to the floor in the rain  
In and out of rain like its some kind of game  
I'm thinking that I gotta speed up  
Cause I know that she don't wanna slow down

She wanna be a bad girl, She wanna be a bad girl  
She running from her past life,  
Looking for the spotlight  
She wanna be a bad girl, She wanna be a bad girl  
She's all up in the street light, looking for the spot light

And she knows that she can drive them insane  
Body like a super model rolling in a range  
And I know that she wanna get down with a thug  
Smack that give some love when she wanna  
Wanna give anything to get on her  
I lace her up in some Gucci and Prada  
Take her to the crib it's on all night  
Cause I'm a let her do what she wants

She wanna be a bad girl, She wanna be a bad girl  
She running from her past life,  
Looking for the spotlight  
She wanna be a bad girl, She wanna be a bad girl  
She's all up in the street light, looking for the spot light

Now she's all up in the streets and along  
Shorty want it bad and she's out of control  
Ain't nobody gonna get in her way  
Cause she's out there doing her thing I know  
She needs to be all that, type of girl that'll make you wait up to fo  
r her to call back  
But as long as she's bad with me, I'm a keep chasing her  
Chorus

She wanna be a bad girl, She wanna be a bad girl  
She running from her past life,  
Looking for the spotlight  
She wanna be a bad girl, She wanna be a bad girl  
She's all up in the street light, looking for the spot light
