

Breathe

Massari

Lately you've been getting upset
With every little thing I say
Feel like I'm losing my friend
But I don't wanna say goodbye

Maybe all we need is a little bit space
Before we pack it up
Throw it all away
I'm tryin' to make it right
But all we do is fight
It feels like these walls are closin' in

We gotta let it
Breathe Breathe Breathe
Breathe Breathe Breathe
We can talk about that shits
All night long
But we ain't getting nothing solved

We gotta let it
Breathe Breathe Breathe
Breathe Breathe Breathe
We just keep on going back and off
It don't make sense anymore

We gotta let it breathe (Breathe)
We gotta let it breathe (Breathe)

Girl remember we would talk all night
And I would kiss you through the phone (Ohhh)
Try to kiss but you was wearing in bed
I know it always turns you on

Maybe all we need is a little bit space
Before we pack it up
Throw it all away
I'm tryin' to let you know
Don't wanna let you go
I can't let this starts the fool way

We gotta let it
Breathe Breathe Breathe
Breathe Breathe Breathe
We can talk about that shits
All night long
But we ain't getting nothing solved

We gotta let it
Breathe Breathe Breathe
Breathe Breathe Breathe
We just keep on going back and off
It don't make sense anymore

We gotta let it breathe (Breathe)
Take a little time to breathe (Breathe Breathe)
We gotta let it breathe (Breathe)
Take a little time to breathe

Tell me how the hell we ended up here
We used to be so close (Ohhh)
And baby when you love somebody
You gotta learn to let him go

We gotta let it
Breathe Breathe Breathe
(We gotta let it breathe)
Breathe Breathe Breathe
We can talk about that shits
All night long
But we ain't getting nothing solved

We gotta
We gotta let it
Breathe Breathe Breathe
(We gotta let it breathe)
Breathe Breathe Breathe
We just keep on going back and off
It don't make sense anymore
