

In Love Again

Massari

It must've made you so sad
To know that I was in love again

Guess all the things that we had
Just wasn't good enough for you

When I gave my world
You've turn around and you've hurt me
Tell me why
Thought that you was my girl
I guess things ain't the same

I was the one that gave you my heart
How could you turn around and play these games

(I was in love again)

No baby don't you cry look into my eyes
How did you feel when you gave my love away

(I was in love again)

Now that i'm doin' better
Movin' on with my life
You wanna try to come around just to say you want me

You say you make me better
But all you do is lie
'Cause every night you goin' be creepin' with another man
I don't wanna be there waittin' every night wonderin' if you are with another guy
If I was to give you all my love again
You would only turn around and leave me lonely

I was the one that gave you my heart
How could you turn around and play these games

(I was in love again)

No baby don't you cry look into my eyes
How did you feel when you gave my love away

I gave you all the love that I know
I let you know that you're my heart and my soul
So why you wanna give my love away
Nothing in the world that you can do will make me wanna stay

I was the one that gave you my heart
How could you turn around and play these games

(I was in love again)

No baby don't you cry look into my eyes
How did you feel when you gave my love away
