

# Who Knows

Massari

Somebody gotta tell me what tomorrow brings  
And now I feel my life is just another dream  
Even if i'm lost im gonna find a way  
And even if i'll never see another day  
Just tell me what tomorrow brings..

My life's been all the same  
I'm thinkin that it'll start to change  
I'm thinkin that it's startin to let go  
I've gotta let go of all them things  
All the hard times I know they've been  
Slowly startin to float away  
I'm thinkin that i've gotta let go  
If you could show me what tomorrow brings

Oh no  
Who knows  
What's going on  
When your living the life that gets harder  
When your liking the change you get caught up  
Oh no  
Who knows  
What's going on  
When your feelin alone and go crazy  
And your screamin my Lord wont you save me

Somebody gotta tell me what tomorrow brings  
And now I feel my life is just another dream  
Even if i'm lost im gonna find a way  
And even if i'll never see another day  
Just tell me what tomorrow brings..

I was strugglin days and nights  
But now everything's goin alright  
I'm thinkin that i'm startin to move on  
I've gotta move on and live my life  
I've gotta think out everything  
Coz there is no one to show me the way  
I'm thinkin that i'm startin to move on  
Coz ?? show me what tomorrow brings

Oh no  
Who knows  
What's going on  
When your living the life that gets harder  
When your liking the change you get caught up  
Oh no  
Who knows  
What's going on  
When your feelin alone and go crazy  
And your screamin my Lord wont you save me

Somebody gotta tell me what tomorrow brings  
And now i feel my life is just another dream  
Even if im lost im gonna find a way  
And even if i'll never see another day  
Just tell me what tomorrow brings...

Somebody gotta tell me what tomorrow brings  
And now I feel my life is just another dream  
Even if i'm lost i'm gonna find a way
