Antistar

Massive Attack

Can you lick my wounds please
Can you make it numb
And kill the pain like cortizone
And grant me intimacy
How'll we split your chromosomes

Yeah more sweet narcosis
Yeah more sweet narcosis
(i'll turn a stone i'll find you)
Yeah more sweet narcosis
(i'll turn a stone i'll find you)

I turn a stone i'll find you there Into reflected light i'll stare You blind me with flash bulbs And puzzle me with syllables

Back to sleep
Yeah more sweet narcosis
(i'll turn a stone i'll find you)
Yeah more sweet narcosis
(i'll turn a stone i'll find you)
Yeah more sweet narcosis
(i'll turn a stone i'll find you)

My heads between my knees again Got needle set to zero And you can shoot me hurricanes Don't spare me the details

Yeah more sweet narcosis
(i'll turn a stone i'll find you)
Yeah more sweet narcosis
(i'll turn a stone i'll find you)
Yeah more sweet narcosis

More sweet
More sweet
Iconography fucks with me
You look great in bloodstains
